On the 6th September 2013, MIEA saw the formation of a new group within the organization. MIEA Youth was established as the new platform that unites all young real estate agents and negotiators for the betterment of the real estate agency industry.

MIEA Youth hopes to bring together young members to shape the future of the real estate agency profession in order to meet the challenges of an increasingly complex world. Through collaborative learning activities and some fun activities, we look forward to discovering the doors of opportunity that MIEA Youth may open to its members.

As a member of MIEA Youth, one is to benefit from the educational seminars and roundtable discussions that will be organized for members to share their ideas and knowledge for the continuous professional development of the industry.

All work and no play makes real estate agency a dull profession. Hence, social and sport-related activities which will be organized to enable members to network amongst themselves and with other organizations which are associated with the real estate industry.
